Pipri-Wardha**

Best Practice

1. Title of the Practice: Mentorship Scheme

2. Objective of the practice:

1. To maintain regular and intensive contact with students.
2. To identify the problems of students.
3. To a develop rapport with students as a 'Teacher Parent'
4. For the comprehensive development of Students.

3. The Context:

Majority of the students are from rural community and economically deprived families. These students have an inferiority complex to discuss difficulties in classroom and to participate in various co-curricular and extra-curricular activities, to over come these problems the mentor facilitates the students and acts as bridge with subject teachers.

- 4. The Practice:** In the session 2021 – 22 as the students get admitted in first year in the Institute, the coordinator of Mentorship Scheme prepares list of mentors and allotted mentee. This allotment list is provided to respective mentors and also displays this to class notice board. The respective mentors carry these allotted students to the final year of the course, and act their parents in the Institute. Mentors arrange meetings of their respective mentees to highlight the purpose of mentorship scheme and maintain their academic and personal records and guide them. As required mentors contact mentees for all necessary Notices and Important instructions.
- 5. Evidence of Success:** As this practice has a regular and close contact with mentees it has shown a huge benefit in the COVID-19 lockdown period. So many Students need a parental touch in college, because they undergo de-motivation types of issues due to COVID-19 lockdown. All the mentors personally contacted their respective mentee for attendance and participation in activities. Mentors discuss about learning issues with students and suggest solutions
- The list of allotment of mentee to mentors is with college records.

6. **Problems encountered and Resources required:** In the Pandemic COVID-19 situation the Institutes are shutdown and economic situation was depressed in rural areas. So the rural students have to work in the fields, due to this they are not within reach to the live online classes and mentors. So, to communicate them was serious problem. Due to unawareness students change their mobile numbers or don't recharge to continue the service, leads to failure of mobile service.
7. **Notes:** This Mentorship Scheme is implemented in our institute from the educational session 2009 – 10.
